PROFESSIONAL SUMMARY

Data Science and AI graduate from UWE Bristol skilled in Python, SQL, machine learning and data analysis. Built end-to-end ML systems including an AI music recommender trained on 114K+ Spotify tracks. Delivered impact as a Data Analyst Intern at City Mart Holding, building Power BI dashboards that cut reporting time by 40% across 200+ branches, and as a Software Engineer Intern at KBZ Pay, optimising API response time by 80% for 5 million+ users. Seeking a graduate Data Analyst or Data Scientist role in the UK.

EDUCATION

BSc (Hons) Data Science and Artificial Intelligence | September 2025 – June 2026

University of the West of England Bristol, Bristol, United Kingdom | Expected 1st Class

- Built AI music recommender using 114K+ Spotify tracks with Python (pandas, scikit-learn, LightGBM, Random Forest).
- Developed Personalised IT Career Planner ML system using LinkedIn & Indeed data (2024), referencing SFIA Framework and XGBoost methodology.
- Applied end-to-end ML pipelines covering data preprocessing, feature engineering, model training and evaluation.
- Conducted data analysis and machine learning projects across classification and regression tasks.

Higher National Diploma (BTEC Level 4–5) in Computing | November 2022 – November 2024

GUSTO College, Yangon, Myanmar

- Built web applications using HTML, CSS, JavaScript, Java and OOP principles.
- Applied database management and SQL across real-world computing projects.
- Won IOT Challenge competition demonstrating technical problem-solving under pressure.

WORK EXPERIENCE

Customer Service Representative (Part-time) | October 2025 – May 2026

McDonald's, Bristol, England

- Served 100+ customers daily in a high-volume fast-food environment, maintaining accuracy and professionalism under pressure.
- Collaborated with a team of 10+ staff to resolve order issues quickly, maintaining smooth daily operations.
- Maintained 100% compliance with food safety, hygiene and service standards throughout all shifts.

Data Analyst Intern | April 2025 – June 2025

City Mart Holding (CMHL), Yangon, Myanmar

- Extracted and cleaned daily sales data from SAP HANA system across 200+ branches nationwide, ensuring 100% data accuracy before reporting to senior management.
- Built Power BI dashboards visualising branch sales performance, product category breakdowns and promotion effectiveness, reducing manual reporting time by 40%.
- Wrote SQL queries to analyse weekly and monthly sales trends, comparing performance across multiple branches and identifying top-selling products contributing to 30% of total revenue.
- Analysed discount campaign effectiveness across 5+ product categories, delivering data-driven insights and recommendations that supported marketing decision-making for 200+ stores.

Software Engineer Intern | September 2024 – February 2025

KBZ Pay, Yangon, Myanmar

- Built QR code payment flow generating dynamic QR codes with embedded payment amounts, contributing to a mobile payment platform serving 5 million+ users across Myanmar.
- Reduced transaction list API response time through performance optimisation, improving user experience for millions of daily transactions.

- Developed mobile top-up feature integrating third-party telecom APIs (MPT, Ooredoo), expanding platform functionality for 2+ major telecom providers.
- Wrote unit tests and submitted pull requests across 6-month sprint cycles, maintaining code quality and collaborating with QA, product and compliance teams in Agile environment.

IT Support | April 2024 – June 2024

GUSTO College, Yangon, Myanmar

- Resolved 100% of first-line hardware and software issues for 500+ students and staff, providing in-person and remote technical support in a timely manner.
- Maintained and configured computer hardware across college facilities, supporting smooth day-to-day IT operations with zero major downtime incidents.

PROJECTS

AI-Powered Mood-Sensitive Music Recommender

- Built AI music recommendation system using 114K+ Spotify tracks, classifying 4 mood categories using LightGBM — highest weighted F1 0.5652 across 6-model cross-validation.
- Implemented cosine similarity recommender with 4 query modes (mood, song, features, genre) using 8D audio vectors including danceability, energy, valence and tempo.
- Designed end-to-end pipeline covering data preprocessing, feature scaling, mood prediction and top-5 song recommendations.

Personalised IT Career Planner with Skill-Gap Insights and Course Recommendations

- Built XGBoost ML system (99.75% accuracy, F1 0.9975) recommending IT career paths across 6 roles, trained on 6,000 samples with 5-fold stratified cross-validation.
- Compared 3 models (Decision Tree 98.58%, Random Forest 99.67%, XGBoost 99.75%), selecting best model validated against SFIA Foundation framework.
- Integrated role prediction, skill-gap analysis, priority learning roadmaps and course recommendations into one end-to-end personalised pipeline.

FixIt – AI-Assisted Home Repair Support Application (Innovation Hackathon, GUSTO College)

- Created AI app concept to diagnose and repair household devices including refrigerators and air conditioners.
- Proposed 3 core features: AI fault identification, repair shop recommendations and technician contact support.
- Presented at GUSTO College Innovation Hackathon focusing on user-centred design and problem-solving.

SKILLS

Programming: Python, SQL, Java, JavaScript, HTML, CSS

Libraries & Tools: pandas, NumPy, scikit-learn, TensorFlow, Jupyter Notebook, Google Colab, Git, GitHub, MySQL, MongoDB, AWS

Data & ML: Machine learning, deep learning, neural networks, NLP, recommendation systems, predictive modelling, feature engineering, data cleaning, statistical analysis, end-to-end ML pipelines

Visualisation & BI: Power BI, Tableau, data visualisation, business intelligence

Development: OOP, software engineering, web development, database management, Agile project management

Professional Skills: Communication, teamwork, problem-solving, analytical thinking, time management

ACHIEVEMENTS & CERTIFICATIONS

Jan 2024 — May 2024 **IOT Challenge Winner** | GUSTO College

Mar 2025 — Mar 2025 **Innovation Hackathon Participant** | GUSTO College (FixIt App)

Dec 2025 — Mar 2026 **Data Analysis & Machine Learning** | Ace of Data

Jul 2025 — Jul 2025 **Regen Asia Summit Program** | National University of Singapore

May 2025 — Jul 2025 **Introduction to Programming Using Python** | Technortal

May 2025 — Aug 2025 **Introduction to Programming Using Java** | Technortal

Jun 2023 — Jul 2023 **IT Challenge Participant** | GUSTO College
